

Monster Talent Acquisition and Onboarding

Streamline and accelerate your onboarding process.

Do you want to seamlessly connect to job boards, social media outlets, and more? Do you imagine an intuitive interface with all the components included for the entire application to hire process? Do you strive for maximum exposure to find the best quality candidate?

Monster Talent Acquisition and Onboarding focuses on ease of use, end-user configurability, and increasing recruiter efficiencies. It provides a cost effective solution for global organizations that require a standard system of record that can be localized and configured to meet the needs of each division, geographical location, or the recruiter's individual needs. Monster helps you automate your onboarding and recruiting process, manage your OFCCP compliance, and track 19 verifications and application tax credits.

Key Benefits

- Accelerate your onboarding process with our automated system
- Create and manage unlimited forms for requisitions, resumes, applications, OFCCP, and EEOC compliance
- Create unlimited, dynamic workflows with configurable approval chains
- Seamlessly share requisitions through social media outlets such as Facebook, Twitter, and LinkedIn
- Provide the option of mobile apply to job seekers
- Create unique recruiting campaigns with multiple branded career portals
- Utilize single sign-on with our comprehensive API

Recruiting and Onboarding

Sourcing, identifying, and selecting your next hire is the first critical component of the employee lifecycle and the first stop on the road to successful talent management. From job requisitions, to recruiting, and then to onboarding, all of our processes are configurable and support dynamic workflows to address the needs of any size organization.

Monster Talent Acquisition and Onboarding offers simple end-user configurability and is fully integrated in our core product lines. No additional integration is required. Unified integration within the Monster Talent Management Suite offers a holistic and comparative view of your employees to help you make better hiring decisions.
