

Monster Talent Gateway

A tailor-made career site that helps employers provide an engaging candidate experience.

*Given today's increasingly competitive hiring landscape, employers are thinking differently about their talent acquisition and retention strategy. More than a "careers" page, leading employers are rolling out a rich career presence that enables them to effectively engage and convert job seekers. At the same time, job seekers want more than a generic job listing or email address to contact Human Resources. They want to know what type of organization it is to work for, what the organization does, and what the culture is like. Job seekers want an immersive experience that helps them understand and feel the personality of the organization. That's why we created **Monster Talent Gateway** - a holistic talent acquisition career site solution that helps employers enhance the candidate experience and increase engagement to ultimately attract and convert more qualified candidates.*

Attract the Right Talent to Your Organization

Because employers have unique recruitment and retention needs, Monster Talent Gateway can be customized to take on a company's brand and personality. Monster technology also supports responsive design so job seekers can engage an organization from any device at any time. Employers can expand their careers ecosystem to include social media properties, creating a consistent user experience wherever job seekers browse.

Focus On What Matters

Employers can outsource their entire careers site to Monster from beginning to end. A careers ecosystem, powered by Monster Talent Gateway, allows employers to focus on what matters — finding, hiring, and developing the best people.

Monster Talent Gateway is available anytime, anywhere, on any device.

With Monster Talent Gateway, employers can:

- Reach a wider audience through connectivity to job boards, social media, and search engines
- Convey recruitment messages via branded mobile and microsites
- Engage job seekers where they live online
- Convert more applicants through seamless integration with an employer's existing Applicant Tracking System
- Build and maintain a candidate database that follows the job seeker's journey and ensures future communications are relevant and timely
- Retain more hires by building stronger relationships at the outset

Quick and Easy Deployment

Monster Talent Gateway integrates with an organization's existing web presence, minimizing IT headaches and accelerating deployment time. Our holistic careers solution offers everything from domain name setup and hosting services, UX and web design, cross-browser and platform testing, and SEO. When the process is complete, employers will have a branded careers experience that inspires, energizes, and engages job seekers on any device they use.

Why Monster?

Monster Talent Gateway leverages Monster's talent acquisition and retention know-how in a packaged solution that can power any company's careers ecosystem. With a 20-year heritage in finding, hiring, and developing the right talent, Monster is the right choice for creating a job-seeking experience that meets the unique needs of employers.
