

Monster Talent Learning

Personalize the experience of the individual learner.

Do you want users to easily import and create an endless supply of content? Do you want to address the learning style of all types of users? Do you want to seamlessly integrate with third party content while still being able to create your own?

Monster Talent Learning gives you unprecedented power to create a full range of personalized learning experiences that are highly aligned to your organization's goals, combining blended learning environments and online training.

Key Benefits

- Track required training and certifications, particularly for highly regulated industries such as healthcare and finance.
- Keep your organization compliant by effectively managing certification programs
- Enjoy the option of automatic reminders and notifications for renewable certifications
- Align your learning and development spending with your business strategy
- Manage and track individual learning plans for the organization or by specific job categories
- Track tuition assistance, approvals, caps, and disbursements
- Build and store a full catalog of instructor-led, online, or external courses, or develop your own engaging content
- Integrate third party courseware that is SCORM, AICC, and Tin Can compliant
- Easy to use employee portals and social learning enables individuals to recommend courses to their peers and collaborate with classmates
- Enable employees to access prior trainings by archiving them within the system

Corporate Learning Systems

Monster Talent Learning offers a comprehensive, engaging solution that makes learning social, fun, personalized, and measurable for both organizational and individual effectiveness.

Monster Talent Learning offers unique configurability and is fully unified into our core product lines. No additional integration is required. Our Monster Talent Learning system enables you to house a full catalog of instructor-led, online, or external courses; and the ability to create and automatically assign curricula to direct employees in required training for new hires or for particular job families, organizational units, locations, or job roles.

At Monster, we understand that the prosperity of any industry is fueled by the right instruction.
